The Hudson's Bay Company

An increase in salary-

"The more I make the more I spend," has been a young man's cry for generations.

When many a man's salary is \$15 a week he lives up to every cent of it, putting off the time to start a savings account until his wages are increased to \$20.

But when the \$5 a week increase comes,

Make that salary increase do something for you if it is to be of any benefit. Deposit it in The Bank of Toronto each week.

But are you better off?

With the interest it earns, you will find at the end of the year that you have a lump sum with which you can do material things.
